Mimaki® JV33™

Available in
1 liter Bottles &
440 ml Cartridges

BVJ BIO High Performance Inks for JV33™ Printers

- Bio inks developed from corn derived renewable resources
- Color compatible with the OEM inks (Full conversion required)
- Chemically compatible with the OEM inks.
- Higher UV, scratch, and alcohol resistance than ECO solvent inks
- Less odor and harmful emissions as compared to traditional solvent inks
- Backed by INX Digital's Worldwide Outdoor Durability and Ink Train Warranty for TRIANGLE® brand inks.

Ink Train Warranty

INX Digital offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown during the initial OEM warranty period, then INX Digital will provide parts, service or reimbursement costs required to repair damage to the ink train.*

*See warranty disclosure statement for details.

Outdoor Durability Warranty

INX Digital backs their products with their Worldwide Ink Durability Warranty. INX Digital's TRIANGLE® Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.*

*See specific product durability warranty as some vary.

+ Ask a sales representative for INX Digital's complete Worldwide Ink Durability Warranty.

Bulk Ink System

INX Digital is proud to offer to the wide format printing community a revolutionary bulk ink delivery system, the EasyFill Pro™. The EasyFill Pro system will substantially increase and enhance your productivity while reducing your costs.

When using EasyFill Pro™ system, you can discontinue use of OEM cartridges, therefore reducing your company's dependency on the OEM. By using INX Digital bulk inks you will feel the positive effect in cost savings.

Easyreset

EasyReset is an automatic chip-emulation system, that replaces OEM chips. Every time you start the printer it generates a new code that takes the Virtual Ink level to 100% (440 ml per cartridge).

Each time you need to replace a cartridge, following the printer User Manual, the Virtual Ink value has to be restored to 100%. To do that, you need to restart your printer.

When the machine is restarted the Virtual Ink value will be back to 100%.

Sustainability at INX Digital

“ Environmental protection is a priority for the conservation of precious natural resources and the continued health of our planet. INX Digital recognizes its responsibility as a global citizen and is continually striving to reduce the environmental impact of the work we do and the products we create. Providing the industry with a digital ink developed from corn derived renewable resources rather than crude based solvents is just one of many steps INX Digital has taken to ensure the longevity of our planet. ”

6 x 1 liter Bottles
Net quantity 6 liters

6 x 440 ml Cartridges of the same part number in one small box, 2 small boxes in one master box.

Color Center

INX Digital provides custom profiles to our customers. Every print shop is unique in their set up just as every printer is slightly different from the other. For this reason we offer to create custom profiles for our customers various needs.

Spare Parts

INX Digital offers common replacement parts (at a significant savings over the OEM) for many of the printers that it manufactures ink for. These parts are the same parts that are sourced by the manufacturers themselves, refurbished, or are re-sourced to solve known problems.
